

SANTOSH DAHAL

FULL STACK DEVELOPER

Lokanthali, Kathmandu, Nepal | dahalsantosh225@gmail.com | +9779805324548

SUMMARY

Full Stack Developer with around 2 years of experience building web and mobile applications. Skilled in JavaScript/TypeScript, React, Next.js, Node.js, and React Native for Android and iOS. Experienced in designing and developing APIs, integrating databases, and delivering user-focused features across the entire product lifecycle. Strong problem-solving abilities and a solid understanding of modern development practices.

TECHNICAL SKILLS

React	MongoDB	Expo
React Native	SQL	Nest JS
Next JS	Express JS	Typescript

PROFESSIONAL EXPERIENCE

Intosoft Pvt. Ltd **Jan 2024 - Present**

- Developed end-to-end web applications using Next.js, React, and Node.js(Express).
- Built cross-platform mobile features for iOS, Android and Web using Expo.
- Increased backend reliability by implementing structured validation, error handling, and logging.
- Collaborated in version control (Git) and contributed to code review and cleaning code standards.

EDUCATION

Dr. Ambedkar Institute of Technology **Aug 2019 - Oct 2023**

Bachelor of Engineering

- Studied core subjects including Data structures, Algorithms, DBMS, Operating System, and Web Technologies
- Built strong foundation in software engineering, programming and problem-solving.
- Developed strong problem-solving and analytical thinking skills through coursework and projects.

PROJECTS

Rentisity

Developed a full-stack property rental platform using Next.js for SEO-friendly server-side rendered pages and Expo/React Native for cross-platform mobile app.

- Built REST APIs with Express and Mongo/DB, handling property listings, user management, and search functionality.
- Designed reusable components and modular architecture, speeding up development of new features.
- Conducted thorough testing, debugging, and deployment for web and mobile apps, ensuring reliability across platforms.
- Optimized application performance and improved load times through caching, query optimization, and efficient state management.

Housebuild

Contributed to HouseBuild.com, a construction and building-compliance platform, by developing frontend features in Next.js and building/maintaining backend APIs with Express to improve performance and user workflows.

- Developed role-based access control for admins, agents, and users to ensure secure platform usage.
- Designed modular and reusable frontend and backend components to accelerate feature development.
- Built and improved Next.js frontend features for better user experience, SEO, and performance.

HuntGate

HuntGate is a mobile application for hunting and equestrian enthusiasts, enabling users to connect with clubs, share news, find events, and manage administrative tasks. Available on iOS and Android, it provides a community-driven platform for both social interaction and club management.

- Developed cross-platform mobile application using Expo/React Native for iOS and Android.
- Built interactive and responsive UI components, ensuring smooth user experience across devices.
- Collaborated with backend developers to integrate frontend with APIs and integrate third-party services.

HelloTechWorld

HelloTechWorld.com is a blogging platform for tech news, reviews, and how-to articles, featuring a full-featured admin panel for content management. Built with Next.js for server-side rendering and SEO-friendly pages, and powered by custom APIs for dynamic content management.

- Developed a full-stack web application using Next.js for frontend and Express.js for backend APIs.
- Built RESTful APIs for CRUD operations, handling user data, content, and interactions securely.
- Created responsive and interactive UI components for seamless user experience across devices.
- Structured the project with modular code, ensuring scalability and maintainability.

- **Languages:** English, Hindi, Nepali.
- **Certifications:** Professional Engineer (PE) — Nepal Engineering Council, Registration Number: 83661
- **Interests:** Playing Chess, Traveling & Exploring New Places; Tech Discussions & Learning Emerging Technologies; Cooking & Experimenting with Recipes
